Tailored Dreams

IT Siamo un'azienda familiare nata da un sogno semplice ma ambizioso: portare nello spazio più intimo della casa la bellezza di un prodotto realizzato con cura e capace di durare nel tempo.

Fin dall'inizio, abbiamo respirato l'amore per i tessuti, il rispetto per il lavoro artigianale, l'attenzione per quei dettagli che parlano senza far rumore. La ricerca della qualità è da sempre parte di ciò che siamo.

Nel tempo ci siamo evoluti. Con i nostri letti abbiamo attraversato confini, aperto le nostre collezioni a mercati sempre più ampi, intrecciando la voce della nostra artigianalità con quelle di designer di fama mondiale.

Da trentacinque anni produciamo ogni pezzo nella nostra sede storica in Veneto, una terra che fonde bellezza e maestria artigianale. I materiali e i fornitori che scegliamo provengono dal nostro territorio, perché crediamo nella forza delle reti locali. Ogni fase del processo è interna, ogni passaggio accompagnato con cura e attenzione. Falegnami, tappezzieri e sarti trasformano la tecnica in gesto, la funzione in armonia. Ogni dettaglio è il risultato di una manualità esperta, affinata nel tempo e in costante evoluzione, come un racconto che si rinnova a ogni letto.

Per noi, coltivare il sapere artigiano significa costruire con pazienza prodotti che parlino il linguaggio silenzioso delle cose fatte bene.

EN We are a family-run company born from a simple yet ambitious dream: to bring the beauty of a thoughtfully crafted, long-lasting product into the most intimate space of the home.

From the very beginning, we have lived and breathed a love for textiles, a respect for craftsmanship, and a keen attention to those quiet details that speak without making a sound. The pursuit of quality has always been part of who we are.

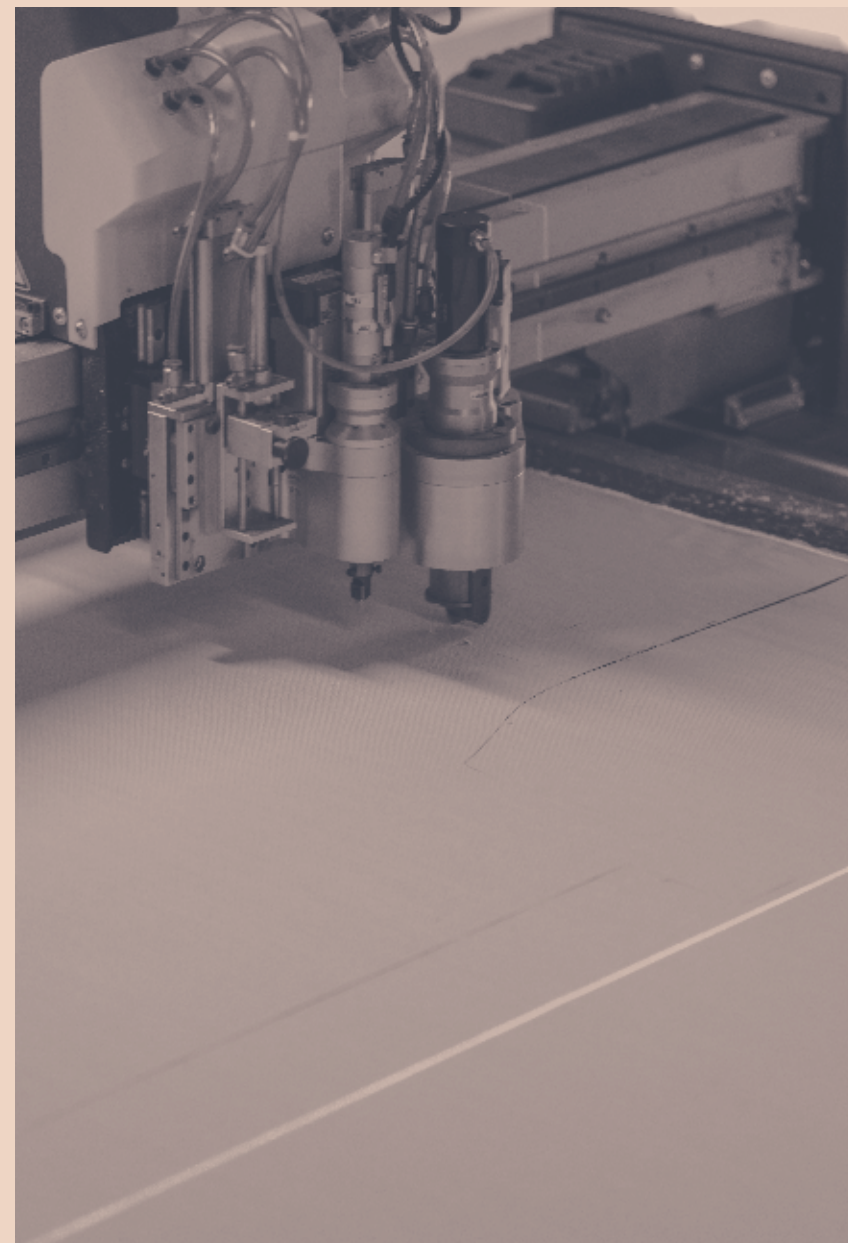

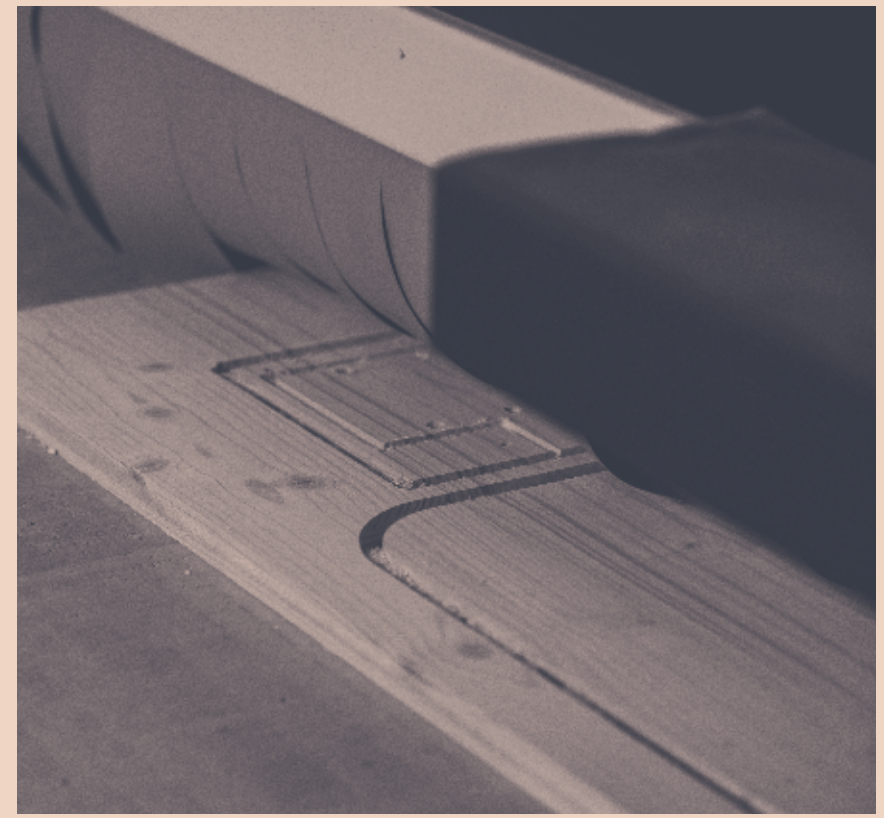

Over time, we have evolved. With our beds, we have crossed borders and opened our collections to ever-wider markets, weaving our artisanal voice with those of world-renowned designers.

For thirty-five years, we have been crafting each piece in our historic headquarters in the Veneto region, a place where beauty and artisanal mastery are tightly interwoven. The materials we choose and the suppliers we work with come from our native territory, because we believe in the strength of local networks. Every phase of production takes place in-house; every step is handled with care and precision. Carpenters, upholsterers, and tailors transform technique into gesture, function into harmony. Every detail reflects skilled hands—refined over time and in constant evolution—like a story that rewrites itself with each new bed. To us, nurturing artisanal knowledge means patiently crafting products that speak the quiet language of well-made things.

IT Il sapere delle mani si intreccia alla materia, trasformando ogni dettaglio in un segno autentico.

EN The knowledge of the hands intertwines with the material, turning every detail into an authentic expression.

IT Tra artigianato e innovazione si compie il nostro cammino: la ricerca della qualità è un valore che ci accompagna da sempre.

EN Between craftsmanship and innovation lies our path: the pursuit of quality is a value that has always guided us.

Sostenibilità e territorio

IT Ogni giorno ci impegniamo a costruire un modo di produrre più responsabile, passando progressivamente da un'economia lineare a una circolare. Per noi, sostenibilità significa ripensare ogni fase del processo produttivo affinché ogni elemento possa essere rigenerato, riducendo al minimo gli sprechi.

Scegliamo materiali con attenzione e rispetto per l'ambiente: legno proveniente da programmi di riforestazione certificati PEFC™, dove ogni albero utilizzato viene sostituito da uno nuovo; alluminio 100% riciclabile, leggero, resistente e riutilizzabile all'infinito; e tessuti sostenibili con certificazioni FSC, OEKO-TEX® e PEFC, garanzia di qualità e sicurezza con un impatto ambientale ridotto.

Utilizziamo colle atossiche a base d'acqua e materiali di imbottitura riciclabili, riutilizzando ogni residuo per eliminare gli scarti di produzione. Anche il packaging riflette la nostra filosofia: realizzato in cartone 100% riciclabile e progettato per ridurre al minimo i materiali, garantendo al tempo stesso la massima protezione.

EN Every day, we commit to a more responsible way of creating—progressively moving from a linear to a circular economy. For us, sustainability means rethinking every stage of production so that each element can be regenerated, reducing waste to the minimum.

We select materials with care and respect for the environment: wood from PEFC™-certified reforestation programs, ensuring every tree used is replaced by another; aluminum that is 100% recyclable, light, strong, and endlessly reusable; and sustainable fabrics carrying FSC, OEKO-TEX®, and PEFC certifications, guaranteeing quality and safety with minimal environmental impact.

We use water-based, non-toxic glues and recyclable padding materials, reusing every leftover to eliminate production waste. Even our packaging reflects our philosophy—crafted from 100% recyclable cardboard and designed to minimize excess materials while ensuring maximum protection.

Materiali

IT Selezioniamo con cura il legno, i rivestimenti e le imbottiture, realizziamo strutture solide e precise e curiamo ogni dettaglio, dentro e fuori: sono queste le qualità che si notano subito e che rendono unico ogni nostro prodotto.

Ci distinguiamo da sempre per l'eccellenza delle strutture portanti, la vera e propria "anima" delle nostre creazioni, frutto di un rigoroso processo di scelta dei materiali e di una realizzazione impeccabile.

Nelle nostre imbottiture scegliamo la fibra di cocco e l'ovatta di lana, materiali naturali e traspiranti che sostituiscono i materiali di derivazione petrolifera e sintetici, restituendo al riposo un senso più autentico e consapevole.

Accanto alle classiche scocche in legno, proveniente da coltivazioni a riforestazione controllata e lavorato con tecnologie avanzate unite alla maestria artigianale, proponiamo anche strutture in alluminio che racchiudono doti innovative di leggerezza, resistenza ed ecosostenibilità.

Tutto nasce dalla nostra ricerca costante e dal desiderio di migliorare ogni giorno, per offrire sempre il massimo in ogni singola realizzazione.

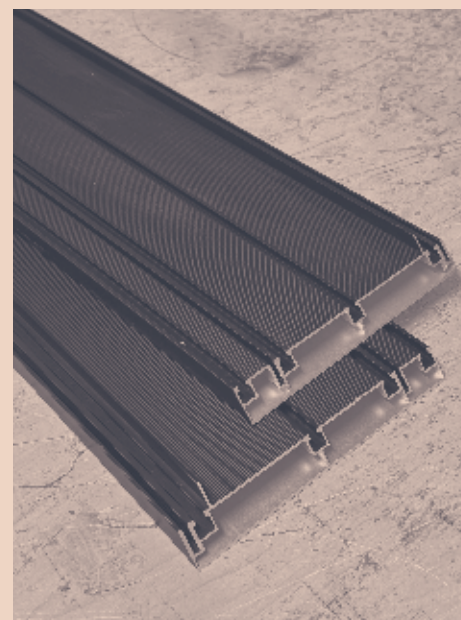

EN We carefully select every piece of wood, every fabric, every padding. Each structure is built with precision and strength, every finish refined to perfection—inside and out. These are the qualities that stand out and make every one of our creations truly distinctive.

Our strength lies in the excellence of our supporting structures—the true soul of our designs—crafted through a meticulous selection of materials and an unwavering commitment to precision.

In our padding, we choose coconut fibre and wool wadding — natural, breathable materials that replace petroleum-based and synthetic ones, restoring to rest a more authentic and conscious dimension.

Alongside our classic wooden frames, sourced from responsibly managed forests and crafted with a perfect balance of advanced technology and artisanal skill, we also design aluminum structures that embody innovative qualities of lightness, durability, and sustainability.

Driven by continuous research and a passion for improvement, we create products that consistently deliver outstanding quality, comfort, and timeless beauty.

Designers

IT La collezione Bolzan nasce da un percorso di costante evoluzione, guidato dalla ricerca tecnologica e dal dialogo con alcune delle voci più autorevoli del design internazionale.

L'incontro nel 2016 con Zanellato/Bortotto ha segnato una tappa decisiva, dando vita a una collaborazione in cui creatività e innovazione si fondono con il prezioso sapere artigianale dell'azienda.

Da questa sinergia sono nati progetti dal carattere raffinato e senza tempo, capaci di raccontare storie uniche attraverso forme e dettagli. Così Bolzan si afferma come punto di riferimento nel panorama del letto di design d'autore.

EN The Bolzan collection is the result of a process of constant evolution, driven by technological research and dialogue with some of the most influential voices in international design.

The meeting with Zanellato/Bortotto in 2016 marked a decisive step, giving rise to a collaboration in which creativity and innovation merge with the company's precious craftsmanship. This synergy has resulted in refined and timeless designs, capable of telling unique stories through shapes and details. Bolzan has thus established itself as a benchmark in the world of designer beds.

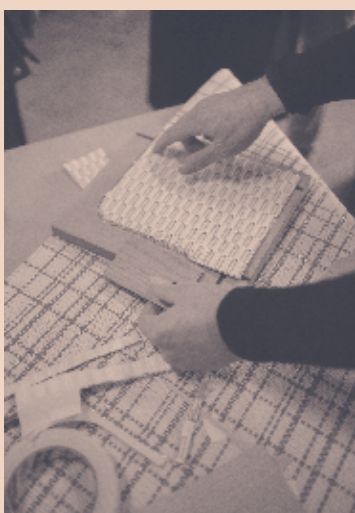

IT I nostri tessuti e pelli sono il risultato di una ricerca orientata alla sostenibilità. Materie prime rinnovabili, riduzione dei consumi e processi ottimizzati danno forma a una qualità responsabile e consapevole.

EN Our fabrics and leathers are the result of research guided by sustainability. Renewable raw materials, reduced consumption, optimised processes give shape to a responsible and conscious form of quality.

IT Collaboriamo con i designer trasformando le loro visioni in realtà. Ogni progetto nasce dal dialogo e prende forma attraverso il sapere artigiano che dà vita alle idee

EN We collaborate with designers, transforming their visions into reality. Each project is born from dialogue and takes shape through the craftsmanship that brings ideas to life.

Bespoke

IT La filosofia Bolzan unisce l'autenticità del sapere artigianale alle potenzialità delle più avanzate tecnologie di lavorazione. Un equilibrio che permette di realizzare con la stessa cura tanto un singolo pezzo d'arredo quanto forniture destinate a progetti di ampio respiro, mantenendo sempre l'eccellenza qualitativa che contraddistingue l'azienda.

Grazie a una struttura produttiva flessibile, Bolzan è in grado di sviluppare soluzioni completamente personalizzate, anche oltre la collezione standard, rispondendo alle esigenze specifiche di architetti, interior designer e operatori del settore contract. Collaborando fianco a fianco con i progettisti, l'azienda offre un supporto tecnico costante: dall'analisi dei disegni e delle informazioni preliminari, fino alla definizione delle soluzioni più efficaci, innovative e, se necessario, certificate per l'ambito contract.

Accanto al servizio sartoriale, Bolzan mette a disposizione strumenti digitali evoluti, come un configuratore 3D che consente di visualizzare in tempo reale il prodotto nelle finiture selezionate, e il download dei file 3D e BIM, per integrare facilmente i modelli all'interno dei progetti e agevolare la collaborazione tra i professionisti.

L'esperienza e la flessibilità di Bolzan si esprimono in creazioni che vanno oltre lo spazio notte: non solo letti, ma anche pannelli imbottiti, rivestimenti per pareti e porte, panche, pouf, divanetti e sedute per zone giorno, ingressi, sale d'attesa, lounge, hotel e aree wellness. Ogni elemento è realizzato su misura, con un'ampia gamma di rivestimenti, tonalità e decori, per armonizzarsi con ogni contesto e interpretare con coerenza e stile l'identità di ogni progetto d'interni.

EN At Bolzan, craftsmanship and technology come together in perfect balance. Traditional know-how and advanced manufacturing processes allow us to create every piece — from a single custom product to large-scale contract projects — with the same care, precision, and timeless quality that define our brand.

Our flexible production approach enables us to develop fully customized solutions, even beyond our standard collection. Working closely with architects, interior designers, and contract professionals, we provide dedicated technical support throughout every phase — from the initial analysis of drawings and requirements to the selection of the most effective, innovative, and certified solutions for each project.

To enhance the design process, Bolzan also offers advanced digital tools: a 3D configurator for real-time product visualization with selected finishes, and downloadable 3D and BIM files that seamlessly integrate into architectural workflows, fostering collaboration and precision.

Driven by experience and creative flexibility, Bolzan's vision goes beyond the bedroom. Our expertise extends to upholstered panels, wall and door coverings, benches, poufs, loveseats, and seating for lounges, lobbies, hotels, and wellness areas. Every element is made to measure, available in an extensive range of fabrics, colors, and finishes — designed to harmonize with any interior concept and express a distinctive sense of comfort, quality, and style.

IT BolzanSpace, il nostro showroom milanese firmato dallo studio Zanellato/Bortotto, è il luogo dove la maestria artigianale incontra la visione del design. Uno spazio concepito come laboratorio di idee e luogo di dialogo, in cui architetti, interior designer e clienti condividono esperienze, materia e competenza per dare forma a nuovi progetti.

EN BolzanSpace, our Milan showroom designed by Zanellato/Bortotto, is where artisanal mastery meets design vision. A space conceived as a laboratory of ideas and a place of dialogue, where architects, interior designers and clients come together to exchange experience, materials and expertise, giving shape to new projects.

IT Al piano superiore, la materioteca diventa uno spazio di incontro e sperimentazione. Un luogo pensato per i professionisti, dove superfici, texture e colori dialogano tra loro, dando vita a nuove possibilità progettuali.

EN On the upper floor, the materials library becomes a space for encounter and experimentation. A place designed for professionals, where surfaces, textures and colours engage in dialogue, giving life to new design possibilities.

IT Casa Bolzan è la nostra casa manifesto, un luogo che racconta la nostra visione: il valore del saper fare, della personalizzazione e del su misura. L'appartamento milanese racconta la nostra identità attraverso spazi progettati con prodotti Bolzan reinterpretati e adattati, in un dialogo armonico tra esigenza abitativa e rispetto dell'architettura, dove ogni dettaglio diventa espressione autentica della nostra filosofia progettuale.

EN Casa Bolzan is our manifesto home — a place that embodies our vision and celebrates the value of craftsmanship, personalisation, and bespoke design. The Milan apartment expresses our identity through spaces shaped by Bolzan pieces, reinterpreted and adapted to create a harmonious dialogue between living needs and architectural integrity, where every detail becomes an authentic expression of our design philosophy.

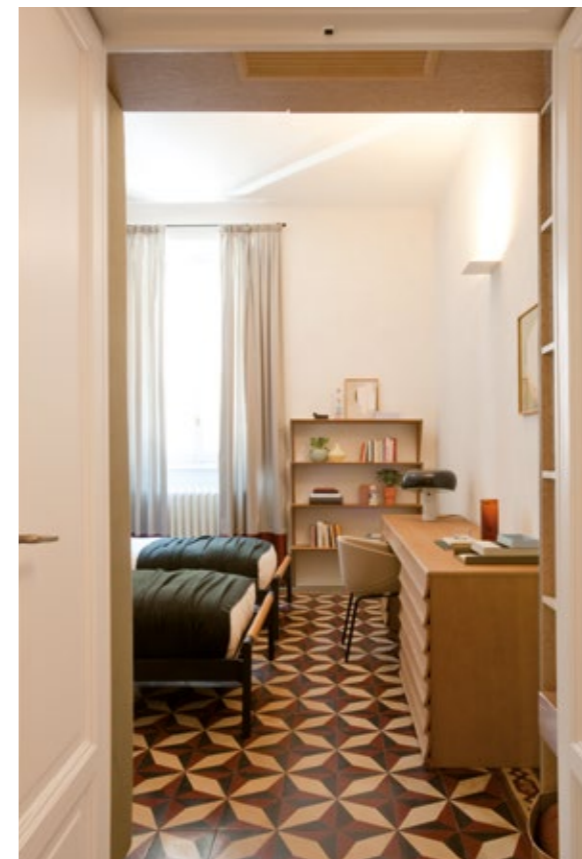

IT Con soluzioni su misura e finiture personalizzabili, Casa Bolzan rappresenta la sintesi del nostro know-how e della nostra maestria artigianale.

EN With bespoke solutions and customisable finishes, Casa Bolzan represents the ultimate expression of our know-how and artisanal mastery.

Residential

Petali

Location: Grasse, France
Project: Zanellato/Bortotto
Year: 2018

In the suite inspired by Moulin des Ribes in Grasse, Bolzan's Jack bed anchors the space with soft, architectural balance, while the Ares bedside table adds a sculptural note in harmony with natural materials. Hand-painted tiles by Botteganove, rattan lamps, and refined textures evoke the colors and scents of Provence, crafting a tactile, poetic interior.

Nella suite ispirata al Moulin des Ribes di Grasse, il letto Jack di Bolzan definisce lo spazio con equilibrio architettonico e morbidezza, mentre il comodino Ares aggiunge una nota scultorea in dialogo con i materiali naturali. Piastrelle dipinte a mano, lampade in rattan e texture raffinate evocano i colori e i profumi della Provenza in un interno poetico e sensoriale.

Trulli Re Giorgio

Location: Castellana Grotte, Puglia

Project: FOS Architetti

Year: 2025

Set in the countryside of Castellana Grotte, this restoration project transforms a traditional trulli complex into an exclusive hospitality experience. The recovery of original stone walls and vaulted ceilings preserves the site's authenticity, while a contemporary design language introduces refined, essential spaces focused on comfort. Bespoke furnishings, a restrained palette and understated materials create a balanced dialogue between past and present. Designed for high-end tourism, the residence offers intimate, carefully curated environments where simplicity becomes luxury. The surrounding agricultural landscape, preserved and enhanced, reinforces the connection between architecture, nature and local identity.

Casa Rodi

Location: Rome, Italy
Project: Substratum Studium
Year: 2025

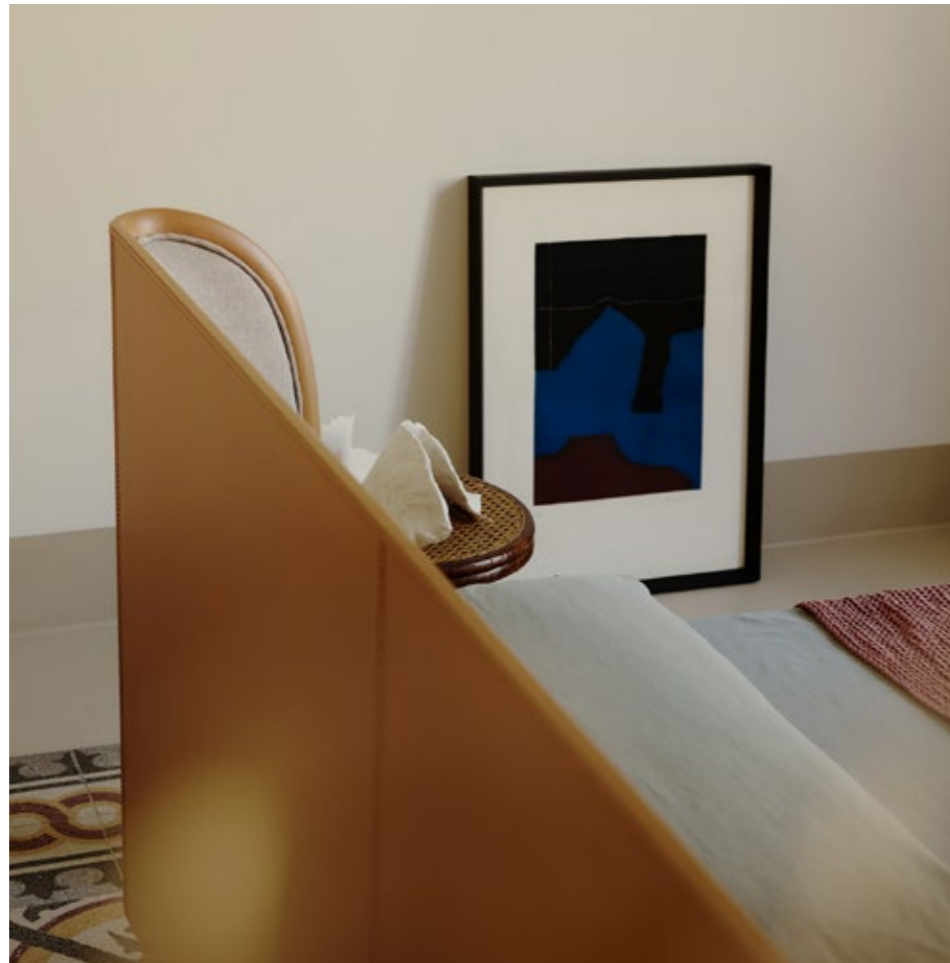

Located in a historic building in Rome's Prati district, this apartment preserves the character of early twentieth-century bourgeois residences. Decorative floors, stucco details and layered perspectives define a space rich in identity and depth. At the centre of the bedroom, the Gabri bed becomes the focal point: its soft leather headboard echoes the geometric pattern of the floors, creating a harmonious dialogue between architecture and contemporary furnishings.

SNO Villa

Location: Soiano (Brescia), Italy

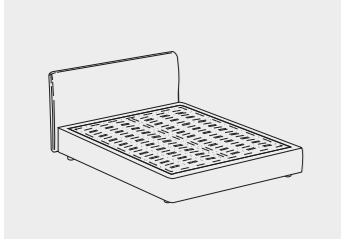

Project: Archventil

Year: 2025

Created in collaboration with local artisans, the project enhances the dialogue between existing elements and new additions. Every detail tells a story of respect, transformation, and careful craftsmanship. An intervention that shows how contemporary living can be rooted in history without giving up on innovation.

Private Loft

Location: Milan, Italy
Project: Specchi Studio + Casa Fabbro
Year: 2025

A fresh, eclectic and irreverent apartment, imbued with creativity. Conceived as a liveable and functional home-studio, it blends everyday living with work in a harmonious balance of aesthetics and practicality. The interior captures the full potential of the space with a distinctive funky style: soft shapes, bold colours and a subtle touch of irony that makes each room unique and dynamic.

Private Apartment

Location: Molfetta, Italy
Project: Domenico Altamura Architetto -
Annamaria Brindicci
Year: 2025

The C.U.B.E. home project restores a tower house in the medieval centre of Molfetta, introducing contemporary elements that remain in balance with the original fabric. In the bedroom, warm mineral tones, natural woods and bronzed metals create an ethereal and sophisticated atmosphere. The central volume — embodying the acronym C.U.B.E., Colour Uniformity & Balance of Elements — reshapes the space, providing privacy and functional storage. In this “pro-active restoration”, the stone remains the true protagonist, while every intervention speaks with discretion and respect for the building’s history.

Project: Zanellato/Bortotto
Year: 2025

As part of the renovation project of Villa Medici in Rome, a French historical heritage site, Bolzan contributed with bespoke solutions reflecting its commitment to customisation. The bed and sofa were designed specifically to mirror the elegance and refinement of the villa's interiors.

Brera Design Apartment

Location: Milan, Italy
Project: Zanellato/Bortotto
Year: 2025

It is the travel diary of a journey made of photographs and memories, which inspired every detail of this room.
A restful space, where the main features are the wooden and wrought-iron bed, alongside fabric-covered textile walls that conceal a wardrobe area, accessed through a system of folding fan doors.

Exhibition by Martino Gamper

Location: Mayfair (London), UK

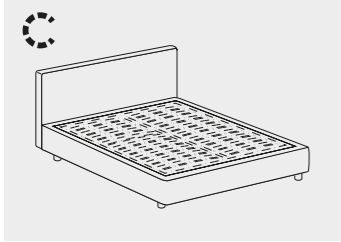

Project: Martino Gamper

Year: 2024

Before, After & Beyond, the first full retrospective in London of the work of internationally acclaimed designer Martino Gamper. The exhibition explores and celebrates the domesticity of Martino Gamper's work, as well as the processes of making, producing, and assembling. His work is reflective of his motive of connecting people, his interest in the social dimension of furniture, using design to create interaction.

Edit

Location: Naples, Italy
Year: 2022

Featuring:

Jack-e fabric

On the occasion of EDIT Napoli, the fair dedicated to innovative design, the Jack-e fabric bed took centre stage. Enhanced by the frescoes and the elegant, refined setting, it highlighted its artisanal identity. Its contemporary lines and rich materiality further emphasised the unique character of the model.

Nomadaria - Edit 2025

Location: Napoli
Project: Elena salmistraro
Year: 2025

The installation reinterprets the HouseTree living model, transforming it into a poetic, nomadic dwelling module. It draws inspiration from the architecture of the Campanian coast and its long-standing building traditions. A light, essential shelter, deeply connected to the local landscape, designed to welcome and to move.

Artissima Fair

Location: Turin, Italy
Project: Artissima Fair
Year: 2025

On the occasion of Artissima, the Turin fair dedicated to contemporary art, the poufs made by Bolzan were included in the design of the talk area, helping to create a professional yet welcoming environment. The Flag benches, on the other hand, were used in the speakers' stage area, providing a comfortable and pleasant seating solution.

Skyway Suite

Location: Courmayeur, Italy
Project: Airbnb
Year: 2021

The Skyway Monte Bianco suite, located at the Punta Helbronner station, is one of the most coveted rooms with a view. The cozy atmosphere is enhanced by design elements carefully chosen to highlight the main feature of the room: a nearly 50-square-meter window that frames Mont Blanc.

In Itinere #1

Location: San Servolo, Italy
Project: Zanellato/Bortotto
Year: 2019

On one of the most fascinating and evocative islands in the Venetian lagoon, the launch event for the first issue of In Itinere — Bolzan's own magazine telling the stories of people, products and processes — took place. The spotlight was on Jack-e, a solid ash wood bed whose production process embodies materials and techniques that are sustainable for both the environment and the people who live with and use it.

Woven Dreams - Bolzan Space Showroom

Location: Milan, Italy
Project: Zanellato/Bortotto
Year: 2025

Woven Dreams is a project featured in the third issue of In Itinere magazine, focused on decorative headboards, which the four participating designers have chosen to interpret through their own identity, style, and personality. Each technique and detail highlights Bolzan's savoir-faire and expertise.

The Apartment

Location: Milano, Italy
Project: DWA Design Studio
Year: 2022

Joy is the standout bed in the bedroom of The Apartment, a project created through the collaboration between Airbnb and Elle Decor Italia to launch Airbnb Plus, the new Airbnb category featuring original homes with strong character, verified for quality and comfort.

The restyling of the apartment at Via Vivaio 22 in Milan was developed together with architects Alberto Artesani and Frederik De Wachter of DWA Studio—a tailor-made project designed to interpret the value and uniqueness of the spaces.
